

SUBJECT: POOL REGULATIONS

ARR Number 2.2

REVISED: May 2006

PURPOSE: To establish regulations on pool usage for the protection of co-owners and their guests to assure a safe and sanitary operation, and to define eligibility for admittance and conduct while in the pool and pool area.

POLICY: The following procedures and regulations apply:

PROCEDURES

POOL OPENING/CLOSING DATES AND HOURS

The pool will usually be opened in May on the Saturday preceding Memorial Day and be closed in September at the end of the day on Labor Day. The pool will normally be opened daily, including weekends, but may be closed at any time at the discretion of the Management Company. Dates and hours of operation of the pool will be announced in the *Lexicon* and posted at the pool entrance.

ADMITTANCE TO THE POOL FACILITY

Admittance to the pool facilities (including the restrooms and showers) is controlled by an electronic "gate-fob". This fob is available to co-owners through the Pool Committee or Management Company and requires the co-owner to sign a pool use waiver form which acknowledges having received a copy of the regulations. There will be a \$25 charge for a replacement fob.

Parents are responsible for their children's actions. Resident children, eighteen years or younger, must be accompanied by a resident adult at all times.

Renters may use the pool only when they have submitted a letter signed by the co-owner giving them permission to do so, and have received the fob from the co-owner. Guests of renters are not permitted.

Admittance will be denied to any co-owner with an account delinquency.
